Millie is the founder of Legacy 127 Consulting Inc., and consults with high-net-worth and ultra-high-net-worth individuals and business families, particularly those in Asia, in the areas of global estate planning, involving inter-generational wealth transfer, asset protection, capital preservation, business governance and succession. In addition to planning for protection and preservation of assets, Millie works with families to establish strategies and processes to promote family governance, and maintain family unity, identity and integrity. For this purpose, Millie travels often to Asia and works in synergy with an extensive contact base of bankers and offshore service providers for trusts, foundations and corporations.

Millie speaks regularly at private briefings and seminars, both abroad and locally, for bankers, prospective clients and other interested groups, on wholistic global estate planning and family business succession. She also conducts training and master classes in this area.

Millie is the Senior Consultant of Borden Lander Gervais LLP, a national law firm in Canada, and also a Consultant of Shearn Delamore & Co, a legal firm in Malaysia.

Millie Chan

OBJECTIVES

This seminar enables attendees to:

- Gain a deeper understanding of Labuan Foundation structure
- Learn the advantages / purposes of foundations in wealth management & succession planning
- Understand the differences between foundation, trust, and private trust company
- Compare & contrast the features of foundations offered in some other jurisdictions
- The do's and don'ts of establishing a foundation
